PROFESSIONAL SUMMARY

Full Stack Web Developer specializing in modern, high-converting and multilingual websites. Experienced in building clean, responsive web solutions using React.js, TypeScript and Tailwind CSS. Delivered 6+ live commercial projects across Real Estate, Healthcare, Car Rental and Technical Services industries with strong focus on performance, user experience, conversion and business results.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Tailwind CSS

Backend & Tools: Node.js, REST API, Git, WordPress, Netlify

Other: Responsive Design, Mobile-First Development, UI/UX Implementation, Multilingual Websites (LTR/RTL), Performance Optimization

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

August 2024 – Present

Freelance / Self-Employed | Remote (Buston, Tajikistan)

- Designed and developed 6+ modern, fully responsive websites using React.js, TypeScript and Tailwind CSS for international clients
- Built multilingual business websites (Real Estate, Car Rental, Technical Services) with clean UI/UX focused on conversion and user engagement
- Created conversion-oriented layouts, reusable components and smooth user experiences from design to final deployment
- Deployed and maintained multiple live projects on Netlify with focus on fast loading speed and mobile-first performance
- Managed the full project lifecycle independently — from planning and UI design to development, testing and deployment
- Used Git for version control and continuously improved skills in modern web technologies to deliver professional results

SELECTED PROJECTS

Skyrise Towers — Luxury Residential Complex

Modern real estate website for a high-end residential tower featuring virtual tour, apartment listings, pricing and booking functionality. Clean UI with language switcher and strong conversion focus.

Technologies: React.js, TypeScript, Tailwind CSS | Live: fascinating-narwhal-2d66a0.netlify.app

Mr. Tool — Technical Services (Dubai)

Bilingual (English/Arabic) website for a Dubai-based renovation and technical services company. Includes service pages, project gallery, free quote form and WhatsApp integration.

Technologies: React.js, TypeScript, Tailwind CSS | Live: charming-snickerdoodle-6751b4.netlify.app

Xclusive Global Realty — International Luxury Real Estate

Premium real estate advisory platform targeting international clients across Istanbul, Dubai, London and New York. Focus on investment advisory, property search and relocation services.

Technologies: React.js, TypeScript, Tailwind CSS | Live: profound-dolphin-5523ac.netlify.app

Leopard — Premium Car Rental

Luxury car rental website with advanced search and filter system, fleet showcase and online booking. Modern dark-themed UI designed for high-end clients.

Technologies: React.js, TypeScript, Tailwind CSS | Live: stirring-scone-493afb.netlify.app

Meridian — Premium Car Rental (Dubai)

Full-featured car rental platform with live availability, multi-location pickup/drop-off, date & time selection and complete booking system. Clean and conversion-oriented interface.

Technologies: React.js, TypeScript, Tailwind CSS | Live: lighthearted-starship-28a1e4.netlify.app

WEONE — Cars from Europe (Russian Market)

Russian-language website for ordering cars from Europe. Includes car selection calculator, service process explanation and strong conversion elements targeted at the CIS market.

Technologies: React.js, TypeScript, Tailwind CSS | Live: beautiful-stardust-00000f.netlify.app
